## Monitor and Control Permits (Half-Day Course)

The Monitor and Control Permits MSMPER201 Unit of Competency covers the skills and knowledge required to monitor a work situation in which the activity is conducted under a permit to work. The individual will be required to monitor the work situation for conformance to the permit and immediately intervene if the parameters of the permit are not met or work proceeds outside the boundaries set by the permit.

### LEARNING MODULES:

- Conduct Risk Assessments.
- Identification of Hazards and Risks.
- Legal responsibilities.
- Basic communication methods.
- Reporting obligations.
- Documentation of actions or inactions.
- Identify activities requiring a permit and type of permit required.
- Monitor the conditions of work under the permit.
- identify changes in work and site circumstances that affect permit.
- How to control and work with hazard mitigation protocols.

At the successful completion of this course, Candidate will receive the Statement of Attainment and a wallet-size card\* inclusive of the Nationally Accredited course information, student name and course attended date.

(\* Raines Resources will issue an SOA and card after full payment is received)
