## Conduct Civil Construction Skid Steer Loader Operations (1-Day Course)

RIIMPO318F Conduct Civil Construction Skid Steer Loader is a nationally recognised course that describes the skills and knowledge required operate a skid steer loader to load, haul and distribute materials. This course is designed to ensure that workers are equipped with the necessary skills to operate a skid steer loader in various working conditions.

This unit alone does not provide sufficient skill to independently load and unload equipment. To perform this activity safely, personnel must either complete or be assisting someone who has completed RIIHAN308F Load and Unload Plant or equivalent.

### LEARNING MODULES:

- Planning and preparing
- Conducting machine pre-operational checks
- Relocating the skid steer loaders
- Cleaning up.
- Site and equipment safety requirements
- Project Quality Requirements
- Civil construction terminology
- Methods of changing machine attachments
- Safe operating techniques in all terrain
- Basic earthworks calculations
- Basic principles of soil technology for civil works
- Carrying out machine operator maintenance
- Skid steer loader types, characteristics, technical capabilities and limitations
- Operating skid steer loaders; lifting, carrying and placing materials
- Site isolation and traffic control responsibilities and authorities
- Operational, maintenance and basic diagnostic procedures
- Materials safety data sheet and materials handling methods
- Skid steer loader techniques related to essential tasks
- Processes for interpreting drawings and sketches
